

Skarda Equipment Company Remains Open for Business

March 18, 2020

To All Skarda Equipment Customers and Vendor Partners,

The Corona Virus (Covid-19) is continuing to challenge the economy and our normal ways of operating and doing business. We wanted to let you know that **Skarda is open for business** and standing by ready to assist you with all your pneumatic, hydraulic, and electric automation needs.

We have made some small changes regarding our daily operations to adapt to our current business climate. We have suspended all non-essential business travel and all employees have been advised of the CDC guidelines for prevention of the spread of the virus. We are practicing social distancing and limiting face-to-face contact with suppliers and customers to the best of our abilities to reduce the risk of spreading the virus.

We're receiving regular shipments from our suppliers and have not experienced any delays in our supply chain to this point. We have approximately \$2 million dollars of inventory in our warehouses, in addition to the technically trained support that you have come to know from Skarda. Territory Managers and support staff are standing by and able to assist you over the phone, via e-mail, and video conferencing.

We look forward to working with you during these challenging times as well as in the future. We value your business and THANK YOU for trusting Skarda to meet your industrial automation needs.

Sincerely,

Lynn Nordquist, VP for Sales
