**SOLUTIONS IN MOTION: ELECTRIC, HYDRAULIC AND PNEUMATIC**

## **PNEUMATIC VALVE SELECTION WORKSHEET**

Operating Pressure Range	
Operating Temperature Range	
Flow Range (Measured in SCFM)	
CV Rating Required *	
Configuration	2-Way                  3-Way                  4-Way
Number of Ports Required	
Operator Type	Solenoid                  Air Pilot Lever                  Cam Toggle                  Foot
Voltage (if applicable)	
Multiple Valves (if applicable)	Manifold                  In-Line
Port Connection Size	NPT Thread                  Metric Thread
Vacuum Service (if applicable) Measured in HG	

\* This is a flow factor rating that most manufacturers use to rate the pneumatic flow capability
